Bank Competition, Risk, and Asset Allocations. John H. Boyd, Gianni De Nicolo and Abu M. Jalal. No 09/143, IMF Working Papers from International Monetary Fund [Bank Competition and Financial Stability: Evidence from ...](#)

We examine the link between bank competition and financial stability using the recent financial crisis as the setting. We utilize variation in banking competition at the state level and find that banks facing less competition are more likely to engage in risky activities, more likely to face regulatory intervention, and more likely to fail.
