Dualism: The Original Sin of Cognitivism by William R. Uttal

William Uttal considers mental experience to be just as supernatural as any angel in heaven. Why? Because ideas don't weigh anything. Why? Because ideas don't weigh anything. Dualism is a philosophical idea that says there are two kinds of reality, one natural and physical, the other immaterial or supernatural.

Uttal, William R. [WorldCat Identities]

In it, William Uttal argues that much of modern cognitive or mentalist psychology is built upon a crypto-dualism - the idea that the mind and brain can be thought of as

independent entities. This notion of dualism is so pervasive that it covertly influences many aspects of modern science." "To support the argument, the author explores the history of dualism over 100,000 years, from the
