Environmental Data Analysis with MatLab is a reference work designed to teach students and researchers the basics of data analysis in the environmental sciences using MatLab, and more specifically how to analyze data sets in carefully chosen, realistic scenarios.

Environmental Data Analysis with MatLab | ScienceDirect

Data analysis with MatLab, is a brief introduction to MatLab as a data analysis environment and scripting language. It is meant to teach the reader barely enough to understand the MatLab scripts in the book and to begin to start using and modifying them. While MatLab is a fully featured programming language, environmental data analysis with MatLab is not a book on computer programming. It

Environmental Data Analysis with Matlab | ScienceDirect

Abstract. Chapter 1, Data Analysis with MatLab, is a brief introduction to MatLab as a data analysis environment and scripting language. It is meant to teach the reader barely enough to understand the MatLab scripts in the book and to begin to start using and modifying them.
