[Galaxies by Barry N. Malzberg - Goodreads](#)

In a way, Barry Malzberg's science fiction is closer to criticism than it is to literature. The way that his books interrogate and deconstruct the genre matters almost more than plot and character. It's just as well that he is such a good writer. And that he so obviously loves what he is compelled to destroy. Galaxies is the textbook example. [Galaxies: Amazon.ca: Barry N. Malzberg: Books](#) For those looking for a balanced, detailed, descriptive and non-mathematical introduction and overview about galaxies, suitable for relatively persistent and dedicated readers such as mid- to advanced- level amateur astronomers and scientifically oriented laypersons, this is one of the few good books.

[Barry N. Malzberg - Wikipedia](#)

Barry Nathaniel Malzberg (born July 24, 1939) is an American writer and editor, most often of science fiction and fantasy.

[Galaxies by Barry N. Malzberg, Paperback | Barnes & Noble](#)

Barry Malzberg is a maverick SF writer in that he attempts to be very literary in his approach to his fiction writing. In Galaxies it is very evident that this self awareness can create a very interesting novel. Right from the start I was drawn into his "story" which consists of explaining how he wrote the novel "Galaxies" and what it might mean to the average science fiction reader. This ongoing dialogue with the reader might throw off a lot of people used to traditional story telling. And

[Barry N. Malzberg's 'Galaxies' is like a SF Italo Calvino ...](#)

It's hard to spoil a book like this, but rest assured, there is a story here, and Malzberg threads through the usual tropes- FTL travel, vast bureaucracies, interstellar colonization, androids, wormholes, time travel- with his critiques of pulp fiction, hard SF, fans, writers, and himself (especially himself).

[ANTI-OEDIPUS PRESS: Galaxies](#)

Originally published in 1975, Galaxies is a masterwork of the Malzberg canon, which includes over fifty novels and collections. Metafictional, absurdist and sardonic, the book mounts a concerted attack against the market forces that

prescribed SF of the 1970s and continue to prescribe it today.

There is a spectre haunting the science fiction genre—the spectre of Barry N. Malzberg . . . In a genre that, with one hand, claimed to be the ultimate storehouse of innovation, and with the other, leveled strict rules for writing and codes of narrative conduct onto its authors, Malzberg stuck out like a forked tongue, composing works of bona

[barry n. malzberg: 49 Books available | chapters.indigo.ca](#)

Galaxies is a brilliantly original science fiction novel

arranged in fragments that satirize the science fiction writer imagining new worlds and characters. Its central persona is a female astronaut of the 40th century investigating a mysterious "black galaxy".
