LSHTM Research Online

They have chosen, instead, to investigate HIV in the context of social, cultural, political and economic aspects of daily life; and to write about how HIV and AIDS relate to particular social settings, moral codes, political and economic relationships. Ideas about structural violence and processes of disempowerment have played a central role in this work; and research undertaken by applied

Implementing HIV/AIDS Education: Impact of Teachers ...

School-based HIV/AIDS education is a common and well-proven intervention strategy for providing information on HIV/AIDS to young people. However, lack of skills among teachers for imparting sensitive information to students can lead to programme failure in terms of achieving goals.
