Real and Financial Sector Linkages in China and India. Jahangir Aziz. No 08/95, IMF Working Papers from International Monetary Fund. Abstract: In the spirit of what is known as business cycle accounting, this paper finds that the investment wedge-the gap between household's rate of intertemporal substitution and the marginal product of capital

**Real and Financial Sector Linkages in China and India - IMF**

In the case of India, post-1992 financial sector reforms, particularly the reduction in the funds preempted by the government from the banking system, has played an important role in reducing the cost of capital. Simulations show that for rebalancing growth in China and sustaining high investment rate in India, further financial sector reforms could turn out to be key.
