The Nonbank-Bank Nexus and the Shadow Banking System by ...

The present way of thinking about financial intermediation does not fully incorporate the rise of asset managers as a major source of funding for banks through the shadow banking system. Asset managers are dominant sources of demand for non-M2 types of money and serve as source collateral mines for the shadow banking system. Banks receive funding through the re-use of pledged collateral mined from asset managers. Accounting for this, the size of the shadow banking system in the U
